

Are your traffic cones in compliance with the newly enacted FHWA-222001-1159? Ours cones are!!

Up until now, traffic cones were too large to store in the trunk of patrol cars or saddlebags of motor units. A complete set of 4 can be easily stored in the trunk of any patrol car. Motor units can split sets and put one cone in each saddlebag.

SAFE

Pop-up Flashing Cones eliminate the fire and environmental hazards of incendiary flares. No fumes. No burns. No risk of igniting spilled fuel or roadside brush.

- Safer to use and transport
- Eliminates dangerous residue

COMPACT

Four Pop-Up Cones take up one cubic foot of space in your trunk. When collapsed, each cone measures only 2-1/2" tall. Each pack of 4 comes with a carry bag that measures 12" x 12" x 12" and weighs only 19 lbs. They fit almost anywhere.

VISIBLE

These cones deploy to 28" high, have both 4" and 6" reflective collars. Each cone is equipped with a battery-powered flashing light unit and come with an internal static/flashing light to increase visibility and to comply with traffic channeling requirements.

COMPLIANT

FHWA-222001-1159 requires 28" cones anytime you handle an incident with a posted speed limit greater than 45mph or anytime when working a scene at night. Pop-up Flashing cones meet all requirements for police and fire according to new law #FHWA-222001-11159.

AFFORDABLE

A set of 4 Pop-up Flashing Cones with convenient carry bag is only **\$159.95**
